

Oh my...heil. Welcome to the
endless pages of my expansion.

Make sure you have the following:

Piece of paper

Pen

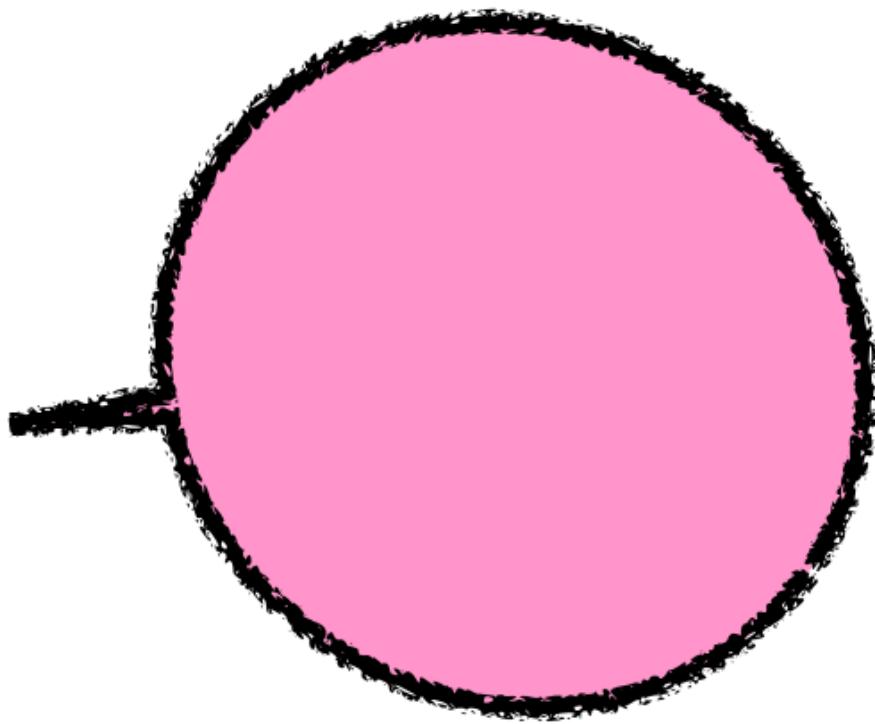

I would suggest to EXPAND the numbers on your paper and then work out the correct answer.

I challenge you to race against time.

If you answer incorrectly or I disappear before you answer you will start from the beginning.

Now... let's see how you fair
hmmm?

Click on the
thumb print
to begin.

Good Luck!

Oh my...hello. Welcome to the
endless pages of my expansion.

Make sure you have the following:
Piece of paper
Pen

I would suggest to EXPAND the
numbers on your paper and then
work out the correct answer.

I challenge you to race against time.
If you answer incorrectly or I
disappear before you answer you
will start from the beginning.

Now... let's see how you fair
hmmm?

to begin.
Good Luck!

Good work!

Below is the reason for expansion and simplification!

By simplifying the numbers you will now know which numbers you should add or subtract!

All warmed up?
Let's see how you fair in Pixie's Speed Test. Don't let her disappear!

$$\{832\} + \{490\}$$

$$800 + 400 = 1200$$

$$30 + 90 = 120$$

$$2 + 0 = 2$$

$$= 1322$$

Do not fret. Click on me if you want to go back to the beginning of this book.

Answer the questions before I disappear.

$$\{746\} + \{321\} = ?$$

{1077}

{1Th+6T+7U}

{1000X1+100X6+1X7}

{1Th+6H+7U}
